

# Gustavo Dantas Guimarães

Brazilian, 26 years old (Dec 21, 1998) – Born in Monte Alegre/MG

Location: Uberlândia – MG, Martins District

Phone: +55 (61) 9.8159-4849 / +55 (61) 9.8195-5443

E-mail: dantaswebdesign77@gmail.com

Portfolio: dantastec.netlify.app

GitHub: github.com/sSmalKk

## Highlights

- **Experience with ERP (Odoo) development and integration, including medical scheduling, electronic health records, subscription management, and dynamic permissions.**
- **Responsible for the design and development of applications and dashboards (Didder App and Minerva projects), using React.js, Next.js, GraphQL, and Node.js.**

## Professional Summary

Fullstack Developer with experience in web systems development, backend (Node.js, Express, Django, Odoo ERP, Python, SQL, MongoDB) and frontend (React.js, Next.js, JavaScript, TypeScript, Material-UI, Bootstrap, TailwindCSS). Hands-on with process automation, API integrations, WhatsApp bots (whatsapp-web.js), and 3D systems (Three.js, Cannon.js, Fiber). Fluent in English with fast learning skills and adaptability.

## Education

Analysis and Systems Development – TADS

Computer Technician – CEBRAC

## Professional Experience

### **Freelancer – Fullstack Developer | 2019 – Present**

- Development of websites, dashboards, and web applications (React.js, Next.js, JavaScript, TypeScript).
- Creation of modular WhatsApp bot (Node.js + MongoDB).
- Report automation with ExcelJS + Python.
- Development of voxel-based 3D games (Three.js, Cannon.js, Fiber).

### **Acescode – Backend Developer (Odoo ERP) | 2025**

- Development of custom modules in Odoo ERP (scheduling, electronic health records, subscription management).
- Implementation of advanced permission rules by user role and clinic type.

### **Minerva Intermediações de Negócios – Lead App Designer | Oct/2024 – ...**

- Led the design and development of applications.
- Development and maintenance of dashboards integrated with GraphQL.
- Refactoring of Backend (Node.js + Express) with TypeScript adaptation.
- Migration from Bootstrap to TailwindCSS, adjustments in Next.js.

### **Espaço Multiplicidades – Project Partner | 2019 – 2023**

### **Pedido Lógico – Technical Support and Administrative Assistant | 2019**

## Technical Skills

|                    |                                                                                        |
|--------------------|----------------------------------------------------------------------------------------|
| Frontend           | React.js, Next.js, JavaScript, TypeScript, Material-UI, Bootstrap, TailwindCSS         |
| Backend            | Node.js, Express, Django, Odoo ERP, REST APIs, GraphQL                                 |
| Databases          | MongoDB, SQL, Mongoose                                                                 |
| Automation & Tools | Python, ExcelJS, Process Automation, Invoice Download Scripts, whatsapp-web.js, Google |
| Other              | 3D Development with Three.js, Cannon.js, Fiber                                         |

## Courses & Certifications

|                                                                               |          |
|-------------------------------------------------------------------------------|----------|
| Computer Assembly and Maintenance – Senac                                     | 2015     |
| Basic Informatics – PRATIK                                                    | 2012     |
| Social Media – CEBRAC                                                         | 2012     |
